when not forming parts of forest areas.\* Of the total culturable waste land (154,302,000 acres in 1936-37), 40 per cent was in Burma, 12 per cent in Assam, 9 per cent each in the Punjab and the Central Provinces and Berar, and 7 per cent in Madras, and the remaining 23 per cent in the other provinces.

**Current fallows** The maximum period for which land left uncultivated is reckoned as fallow varies according to local laws and customs in the different provinces, from two years in the Punjab and the North-West Frontier Province to ten years in Bombay. After this period the land, if still left uncultivated, is treated as abandoned and included under the head "culturable waste". Owing to this diversity of practice, the classification of area as "culturable waste" and "current fallows" is of doubtful statistical accuracy; a plot of land, for instance, left uncultivated for, say, six years, would be treated as fallow in Bombay, but as culturable waste in the Punjab. The total area returned as "current fallow" in 1936-37 was 48,638,000 acres, as against 51,005,000 acres in the preceding year.

Table III  
Irrigation

		Proportion of irrigated to total sown area	where the rainfall is ordinarily heavy, the crops hardly need the help of irrigation, unless there is an unusual scarcity of rain. Of the total area irrigated in 1936-37, the Punjab accounted for 30 per cent, the United Provinces 20 per cent, Madras 17 per cent, Bihar and Sind 8 per cent each and the other provin- ces for the remaining 17 per cent. The proportion of irrigated to total area sown in each province is stated in the margin.
		86 per cent	
Sind	86	per cent	
Punjab	56	"	
North-West Frontier Province	44	"	
Ajmer-Merwara	38	"	
United Provinces	28	"

Burma	8	"	
Bengal	8	"	
Central Provinces and Berar	4	"	
Bombay	4	"	
Goorg	3	"	

The above figures of irrigated areas do not take into account areas sown more than once during the year with the help of irrigation, but indicate the extent of land actually irrigated. Counting areas sown more than once as separate areas for each crop, the gross area of irrigated crops was 55,519,000 acres in 1936-37. Of this area, 82 per cent was under food crops and the remainder under non-food crops. Of the former, 18,816,000 acres were under rice, 10,348,000 acres under wheat, 2,315,000 acres under barley, 1,362,000 acres under jowar, 940,000 acres under bajra, 984,000 acres under maize, 2,630,000 acres under sugarcane, and the remaining 8,401,000 acres under other food crops. Of the irrigated non-food crop area, 4,248,000 acres were occupied by cotton. These statistics of irrigated crops are in some cases defective as explained in the notes at the foot of Table III (pages 68-122).

Table IV  
Area under crops

The areas cultivated with the different crops represent the areas actually sown, whether the crop comes to maturity or not, except in cases where fields, owing to the failure of the first sowings, have been devoted to other crops, and in these cases the area first sown is omitted. In cases where two or more crops are grown together on the same field, an estimate is made of the area covered by each, and the areas so estimated are separately returned under the respective crop headings. The estimate is made by the village accountant, or is subsequently determined on formulæ prescribed by the provincial authorities. In certain tracts, where the village staff does not exist, estimates are framed on the best available information. An exception to the above rule is, however, made in the United Provinces, where the area sown with unimportant mixed crops, for which no separate heading is provided in the provincial crop statements,

\* For detailed information in respect of provinces, see notes at the foot of Table II, Nos. 23 to 36 (pp. 39-66).

when not forming parts of forest areas.\* Of the total culturable waste land (154,302,000 acres in 1936-37), 40 per cent was in Burma, 12 per cent in Assam, 9 per cent each in the Punjab and the Central Provinces and Berar, and 7 per cent in Madras, and the remaining 23 per cent in the other provinces.

**Current fallows** The maximum period for which land left uncultivated is reckoned as fallow varies according to local laws and customs in the different provinces, from two years in the Punjab and the North-West Frontier Province to ten years in Bombay. After this period the land, if still left uncultivated, is treated as abandoned and included under the head "culturable waste". Owing to this diversity of practice, the classification of area as "culturable waste" and "current fallows" is of doubtful statistical accuracy; a plot of land, for instance, left uncultivated for, say, six years, would be treated as fallow in Bombay, but as culturable waste in the Punjab. The total area returned as "current fallow" in 1936-37 was 48,638,000 acres, as against 51,005,000 acres in the preceding year.

These statistics of irrigated crops are in some cases defective as explained in the notes at the foot of Table III (pages 68-122).

**Table IV**  
**Area under crops**

The areas cultivated with the different crops represent the areas actually sown, whether the crop comes to maturity or not, except in cases where fields, owing to the failure of the first sowings, have been devoted to other crops, and in these cases the area first sown is omitted. In cases where two or more crops are grown together on the same field, an estimate is made of the area covered by each, and the areas so estimated are separately returned under the respective crop headings. The estimate is made by the village accountant, or is subsequently determined on formulæ prescribed by the provincial authorities. In certain tracts, where the village staff does not exist, estimates are framed on the best available information. An exception to the above rule is, however, made in the United Provinces, where the area sown with unimportant mixed crops, for which no separate heading is provided in the provincial crop statements,

\* For detailed information in respect of provinces. see notes at the foot of Table II, Nos. 23 to 36 (pp. 39-66).

communities and *raiyatwari* tenures are, as a rule, temporarily settled, and the land revenue assessed on them is liable to change from time to time.

The following table shows the position as regards the forms of land tenure in the surveyed areas of the various provinces, according to the latest statistics available, the figures roughly indicating the extent to which the different systems prevail :—

	Raiyatwari	Zamindari (individual proprietors or village communities) settled		Total
		Permanently	Temporarily	
	Acres (1,000)	Acres (1,000)	Acres (1,000)	Acres (1,000)
Ajmer-Merwara . . . . .	...	974	797	1,771
Assam . . . . .	29,865	3,919	1,701	35,485
Bengal . . . . .	...	30,277	2,978	49,255
Bihar . . . . .	...	39,694	4,630	44,324
Bombay . . . . .	44,676	...	3,977	48,653
Burma . . . . .	167,518	...	...	167,518
Central Provinces and Berar . . . . .	11,192	...	39,404	63,106*
Coorg . . . . .	1,019	...	...	1,619
Delhi . . . . .	...	...	369	369
Madras . . . . .	62,176	28,843	...	91,019
North-West Frontier Province . . . . .	...	...	8,577	8,577
Orissa . . . . .	3,930 (b)	9,861	6,815	20,606
Punjab . . . . .	...	...	60,175	60,175
Sind . . . . .	30,180	...	...	30,180
United Provinces . . . . .	...	7,306	60,660	67,966
Total . . . . .	350,556	129,874	197,143	(a) 690,023

It will thus be seen that 52 per cent of the total area (excluding Government forests in the central Provinces and Berar *vide* footnote \* below) is held by *raiyatwari* proprietors, while 19 per cent is held by permanently settled and 29 per cent by temporarily settled *zamindari* proprietors.

The statistics for this table are collected annually in Burma, Assam, Ajmer-Merwara, the Punjab, Delhi, the North-West Frontier Province, and the Central Provinces and Berar, and quinquennially in Bengal, Bihar, Orissa, the United Provinces, Bombay, Sind, Madras and Coorg.

According to the latest statistics available, the total revenue from land (excluding cesses) for the whole of British India amounts to about Rs 40 crores. This represents the actual realisable demand† on account of the year, no account being taken either of the collection of arrears for past years, or of amounts remaining uncollected at the end of the year. The marginal table shows the total land revenue assessment, the total population, and the assessment per head of population in each province\*\*. For additional details, reference should be made to Table No. 79 on pages 280-287.

	Total revenue from land (Rs 1,000)	Total population (1,000)	Revenue per head Rs a.
Ajmer-Merwara . . . . .	3,56	408	— 14
Assam . . . . .	1,41,32	8,022	1 10

Total (a) . . . . .	30,91,63	270,944	1 8

Table VII  
Harvest prices

Table VII shows prices of staple crops at harvest-time. The provincial figures represent median averages of the district figures reported in the provincial Season and Crop Reports.

\* Including 12,460,000 acres of Government forests.

† Sums remitted on account of unoccupied lands, short crops, etc., are wholly excluded from this total amount in the case of provinces where all remissions are granted within the year to which the return relates, but in provinces where remissions are not granted or are only partially granted within the year, no deduction is made on account of remissions.

\*\* Statistics of the incidence of land revenue assessment dealt with in this table show only the average amount contributed by each acre of land or per head of population in each province or district towards land revenue. They cannot be used for comparing the burden of land-revenue on land in the different districts and provinces as no valid comparison is possible without taking into account such factors as the nature of the soil, climate, facilities for irrigation, etc.

§ Excluding revenue of certain districts for which figures are not available.

(a) See footnote (c) on page 10. (b) Including Gountini and Malguzari.

communities and *raiyatwari* tenures are, as a rule, temporarily settled, and the land revenue assessed on them is liable to change from time to time.

The following table shows the position as regards the forms of land tenure in the surveyed areas of the various provinces, according to the latest statistics available, the figures roughly indicating the extent to which the different systems prevail :—

	Raiyatwari	Zamindari (individual proprietors or village communities) settled		Total
		Permanently	Temporarily	
	Acres (1,000)	Acres (1,000)	Acres (1,000)	Acres (1,000)
Ajmer-Merwara . . . . .	...	974	797	1,771
Assam . . . . .	29,865	3,919	1,701	35,485
Bengal . . . . .	...	30,277	9,078	49,255
Bihar . . . . .	...	39,694	4,630	44,324
Bombay . . . . .	44,676	...	3,977	48,653
Burma . . . . .	167,518	...	...	167,518
Central Provinces and Berar . . . . .	11,192	...	39,404	63,106*
Coorg . . . . .	1,019	...	...	1,619
Delhi . . . . .	...	...	369	369
Madras . . . . .	62,176	28,843	...	91,019
North-West Frontier Province . . . . .	...	...	8,577	8,577
Orissa . . . . .	3,930 (b)	9,861	6,815	20,606
Punjab . . . . .	...	...	60,175	60,175
Sind . . . . .	30,180	...	...	30,180
United Provinces . . . . .	...	7,306	60,660	67,966
Total . . . . .	350,556	129,874	197,143	(a) 690,023

It will thus be seen that 52 per cent of the total area (excluding Government forests in the central Provinces and Berar *vide* footnote \* below) is held by *raiyatwari* proprietors, while 19 per cent is held by permanently settled and 29 per cent by temporarily settled *zamindari* proprietors.

The statistics for this table are collected annually in Burma, Assam, Ajmer-Merwara, the Punjab, Delhi, the North-West Frontier Province, and the Central Provinces and Berar, and quinquennially in Bengal, Bihar, Orissa, the United Provinces, Bombay, Sind, Madras and Coorg.

According to the latest statistics available, the total revenue from land (excluding cesses) for the whole of British India amounts to about R 40 crores. This represents the actual realisable demand† on account of the year, no account being taken either of the collection of arrears for past years, or of amounts remaining uncollected at the end of the year. The marginal table shows the total land revenue assessment, the total population, and the assessment per head of population in each province\*\*. For additional details, reference should be made to Table No. 79 on pages 280-287.

	Total revenue from land (R 1,000)	Total population (1,000)	Revenue per head R a.
Ajmer-Merwara . . . . .	3.56	408	— 14

Column 5.—Where the land revenue includes the zamindar's share, the net demand is entered, and the table states the payment wholly realised during the year or not, is entered after excluding arrears for past years. Sums remitted on account of unoccupied lands, short levies from cultivators in Sind, fluctuating collections (including nazars), over-collections (Bombay), surplus collections, collections from Government summary settlement cess; (b) motapha (house tax) collections; (c) assessment of alienated lands less quit-rent; (7) recoveries on account of (Sind), *malikana* or allowances to excluded proprietors, fines and forfeitures of Revenue Courts (except in Bengal and Assam), receipts under mines (Burma), recoveries in India of law charges in England on account of appeals from India, miscellaneous receipts, rents of railways class C, \* Miscellaneous revenue.

† Excludes Burdwan for which information is not available and 5,525,541 acres in the districts of Bankura, Hooghly, Khulna, Murshidabad, Pabna and Rangpur for which details are not available.

‡ Excluding certain districts for which figures for revenue are not available.

§ Excludes 2,236,334 acres for which details are not available.

|| Excludes 1,923,820 for two districts in the United Provinces for which details are not available.

(a) Incomplete.

(c) Figures are defective as particulars for the tracts transferred from Madras to Orissa are not available.

(b) Figure not available.

**Column 5.**—Where the land revenue includes the zamindar's share, the net demand is entered, and the table states the payment wholly realised during the year or not, is entered after excluding arrears for past years. Sums remitted on account of unoccupied lands, short levies from canals in Sind, fluctuating collections (including nazaranas), over-collections (Bombay) surplus collections, collections from Government summary settlement cess; (b) motor-tax (house tax) collections; (c) assessment of alienated land less quit-rent; (7) recoveries on account of (Sind), *malikana* or allowances to excluded proprietors, fines and forfeitures of Revenue Courts (except in Bengal and Assam), receipts under mines (Burma), recoveries in India of low charges in England on account of appeals from India, miscellaneous receipts, rents of railways class C. \* Miscellaneous revenue.

† Excludes Barwan for which information is not available and 5,825,541 acres in the districts of Bankura, Hooghly, Khulna, Murshidabad, Pabna and Rangpur for which details are not available.  
‡ Excludes certain districts for which figures for revenue are not available.  
§ Excludes 2,238,334 acres for which details are not available.  
|| Excludes 1,923,820 for two districts in the United Provinces for which details by tenures are not available.  
(a) Incomplete.  
(b) Figures are defective as particulars for the tracts transferred from Madras to Orissa are not available.  
(c) Figure not available.

Column 2.—The professional survey is that carried out by the Survey of India in Northern India, and by the Departments in the Southern Presidencies. The provincial areas in this column exclude Indian States in direct political relations with the Government of India, but include States politically controlled by Local Governments, with the exception of the Tribal areas in the North-West Frontier Province.

Column 3.—In this column is entered the area of Indian States included in column 2.

Column 4.—Prior to 1903-09 this column showed the entire area (exclusive of Indian States) for which the statistics required for Tables II, III and IV were not forthcoming in whole or in part. This area comprised chiefly estates held in permanent settlement or on privileged tenure, which were not surveyed or which possessed no agency for the annual collection of agricultural statistics. But arrangements have since been made to prepare statistics for the whole of this area, based either on regular returns or on estimates as has been found practicable. There is therefore no longer any unreturned area to be shown in this column.

Columns 5 and 6.—Column 5 is a check on the accuracy of column 3. In the latter "village papers" mean "the papers prepared by the village accountants." The village papers do not in several provinces relate to the whole area included in column 5; for instance, the village returns sometimes do not include the forest areas. There are also tracts in many provinces for which no village papers exist and for which estimates have to be made to complete the statistics. In all such cases, column 6 must be taken to be the total area corrected by the village papers in respect of the areas for which such papers exist. The areas of provinces are districts, which are calculated from village papers, are necessarily somewhat different from those given by the Survey Department, (a) because, while the survey area of a district or province is calculated in block, the area by village papers represents the added total of field and village areas; and (b) because the system followed as regards the inclusion or exclusion of areas covered by water, buildings, roads, and railroads, is not uniform in the two sets of returns. In provinces where no village papers exist, the figures in column 5 have been repeated in column 6. In that case they represent the area of which the details are stated in columns 2 to 6 of Table II.

\* This figure is that of settlement as there is no record of area according to professional survey.

† Excludes area of Indian States which are now in direct political relationship with the Government of India.

‡ Figures up to 1934-35 relate to "Bihar and Orissa".

§ Increase due to recalculation made by the Survey of India.

Column 2 includes all lands specially allotted to forest growth under the control of Government or any Local Board or Municipality, and protected village waste in Hazara administered by the district officer and other waste lands in Peshawar.

Column 4 includes large areas of Government waste not allotted for cultivation.

Column 5.—The maximum period for which land is reckoned as fallow is two years; but, as a change in classification is not generally made until the year for quadrennial statements comes round, the old classification may be retained from one to three years longer than the prescribed period. In Dera Ismail Khan classification is amended according to area of each class of soil actually cultivated each year.

\* See footnote\* on page 31.

Column 2 includes all lands specially allotted to forest growth under the control of Government or any Local Board or Municipality, and protected village waste in Hazara administered by the district officer and other waste lands in Peshawar.

Column 4 includes large areas of Government waste not allotted for cultivation.

Column 5.—The maximum period for which land is reckoned as fallow is two years; but, as a change in classification is not generally made until the year for quadrennial statements comes round, the old classification may be retained from one to three years longer than the prescribed period. In Dera Ismail Khan classification is amended according to area of each class of soil actually cultivated each year.

\* See footnote\* on page 31.

1936-37	:	100,129	867,619	372,058	701,425	614,312	2,455,573
<i>Sukkur</i>							
1935-36	:	274,342	1,805,083	421,682	638,707	473,661	3,613,566
1936-37	:	274,342	1,809,242	431,146	697,795	401,971	3,614,496
<i>Thar Parkar</i>							
1935-36	:	14,402	4,457,974	1,552,885	1,315,667	1,391,866	8,732,774
1936-37	:	13,709	4,453,163	1,527,393	1,318,064	1,420,618	8,732,947
<i>Upper Sind Frontiers</i>							
1935-36	:	23,548	205,534	220,298	383,325	430,383	1,363,688
1936-37	:	23,548	304,643	239,287	369,410	423,979	1,352,767
<i>Total</i>							
1935-36	:	732,001	13,460,788	5,996,578	5,193,184	4,785,332	30,158,183
1936-37	:	723,502	13,706,511	5,782,391	5,104,775	4,710,768	30,027,932

NOTE.—Figures for unsurveyed villages are based on estimates.  
 Column 2—The figures in Sind do not agree with those in the Forest Administration Report, because the revenue records do not state the most recent alterations of area due to erosion by the Indus which the forest report does, and because, on the other hand, the forest report does not always exhibit the most recent alteration of area effected by the revision of survey, which the revenue records do.  
 Column 3 includes all land recorded at the survey and settlement as unculturable, although at times a very small quantity of this land is cultivated.  
 Column 5—The maximum period for which land thrown out of cultivation is reckoned as fallow is ten years.  
 Column 6—Of the total net sown area (4,710,763 acres) in Sind included in this column for 1936-37, 4,615,857 acres are based on actual returns and 24,896 acres on estimates.
